

# Student Support Team

THE UNIVERSITY OF ARIZONA  
**GLOBAL CAMPUS**

## Student Affairs

UAGC offers students opportunities to engage outside of the classroom including membership in nationally recognized honor societies, engagement in online student clubs and organizations, volunteer opportunities in local communities, resources for military affiliated students, and emergency resources for students in need.

## Enrollment Services

Enrollment Services Advisors are a student's primary contact when they apply to UAGC. They help students select degree programs that fit their goals, and guide students through their first course at Global Campus.

## Student Advising

Student Advisors help students track their progress, navigate the online classroom, and adjust their schedule if necessary - until graduation! Student Advisors provide support and encouragement needed to overcome academic challenges and be successful in class.

## Financial Advising

Financial Services Advisors provide guidance on payment options and resources, counsel on loan repayment options, and help manage students' accounts to avoid balance issues.

## Faculty

UAGC faculty are experts in their fields. Through active engagement in the online classroom, faculty encourage students to think critically about topics, provide constructive feedback, and share expertise that will help students excel in their chosen field.

## Career Services

Career Services Specialists provide advice, guidance, and resources as students work their way up the career ladder. Students get help with developing career goals, job searching, resumé and cover letter reviews, and interview preparation. Students have access to career services during their time as a student and even as an alum!

## CHAMPS

The CHAMPS Peer Mentoring program matches new students with high-achieving, upperdivision students to promote student development and success through supportive peer-to-peer mentoring.

## Library

The UAGC Library supports students in finding the information they need to complete their assignments. All resources are online and can be accessed via portable devices or desktop. Librarians are available 24/7 via chat, and respond to email within 24 hours.

## Writing Center

UAGC students succeed when they develop their writing skills. Resources available at the Writing Center include paper review, 24/7 live chat, and helpful strategies to fulfill any writing assignment.

## Access & Wellness

The UAGC Student Access and Wellness office fosters equal opportunities for student success through accessible educational programs, disability-related advocacy, and accommodations and services for students with disabilities. Student Access and Wellness is committed to an environment that respects and values diversity and encourages self-advocacy and self-determination.
